

(Singapore Business Review Award Night – 2/12/2015)

RT Rank Amongst The Top 30 Largest Accounting Firms In Singapore For Four Consecutive Years

4/01/2016

We are in the **top 30, ranked at 21**. This is according to the Singapore Business Review ("SBR"), which ranks firms based on headcount. The headcount at RT reflects our strategic changes within our organization over the last 2 years. RT has consistently made it to SBR list of top 30 firms in Singapore since the inception of the list.

Over the last 2 years, especially in 2015, RT has been embarking on the strategy to right-size the firm to effectively achieve value propositions for our clients. The reorganization involved rationalizing of our operations - legally defining, RT LLP, our regulated services, particularly, audit and assurance, separately from our other services. Our other services, predominantly, the non-audit services, now are being provided by the various RT group of companies. The unification of all our services under the RT Group, with each service rationalized and diversified into separate legal entities, was a strategic move to restructure to be in a position to best service our client needs. We aim to provide personable and pragmatic solutions to our clients - providing proactive value based solutions to our clients is our utmost priority. This effort has been recognised by SBR when RT was awarded the Best Restructuring Firm of the Year in December 2015 - an affirmation of our proactive strategies to service of clients better and to be adaptive to an ever changing market place.

Contemporaneously, RT has formed new businesses - provided through the various entities of RT Group. We are also in the process of expanding regionally with the formation of RT ASEAN network - headquartered in Singapore. The setup of RT ASEAN Network, the first and only locally-branded professional services network, comes at the right time with the launch of ASEAN Economic Community (AEC) on 31 December 2015 - the interest and focus in this region is growing at a rapid speed.

From 1 January 2016, with the formation of RT group of companies, under the astute leadership and vision of **Mr Ravi Arumugam, Chief Executive Officer & Managing Partner**, and a team of highly competent, dedicated and driven leaders, RT Group will expand beyond the existing range of services with expanded services in outsourced accounting & financial reporting, outsourced payroll

& human resource, taxation, incorporation & corporate secretarial services, training and learning. Most of our non-audit services will be provided through RT Advisory, whilst training and learning needs will be provided, facilitated and managed by RT Academy. RT Links will provide, amongst others, outsourced payroll, human resource and talent management services and assist with statutory employment matters.

RT will continuously rejuvenate and transform by using technology to enable productivity and invest in its people so as to keep operating costs low without compromise to quality or delivery. We believe in embracing change and to continuously reassess our ecosystem with an adaptive mind-set. Our focus is on high level professional work with investment in high quality individuals who can provide quality service to our clients - a client centric boutique firm. We prefer to measure our success in reference to quality based delivery that exceeds our clients' expectations. To this end, we chose to be of a size that allows for quick adaptation and to be able to respond to market needs with nimbleness and speed of response. We are proud to rank as one of the very few firms in Singapore, with a local heritage, that is recognized by the Singapore Exchange to be competent and qualified to audit listed clients - both locally in the Singapore Exchange and in capital markets in other jurisdictions.
